

# Butterfly Goddess Doll Form Pattern

Designer Ronda Kivett - [www.Kivett-Studio.com](http://www.Kivett-Studio.com)

This printed Butterfly Goddess template measures approximately 5 1/4 inches tall but can be reduced or enlarged as needed. Once sewn, the blank doll form can be embellished in a number of creative ways to create your own unique art doll. The form can be made from a number of different fabrics depending upon how you plan to embellish the form.

For beading, I suggest stuffing the doll as firmly as possible and using quality wool felt, ultra suede or tightly woven cotton as your base fabric. Most quilting fabrics that are 100% cotton or a cotton polyester blend will work nicely or you can also use muslin. If you find the weave of the fabric is a little loose try washing it first in very hot water. In most cases this will shrink the cotton and tighten the weave. If you plan to paint the doll form I suggest using heavy cotton, muslin or thin to medium weight canvas.

**FELT**-To hand sew the doll form of felt or Ultra-Suede, simply trace or pin the pattern directly onto the felt and cut out. With needle and thread, whip stitch around the edge leaving a hole opening for stuffing. Stuff firmly then stitch the hole closed. There is no need to turn the body right side out when done sewing because the stitches are not very noticeable if you use a matching thread or plan cover the seams with beads or other embellishments.

**MUSLIN**-To machine sew the doll form of muslin (or other cotton / polyester blend fabric, suggested above), cut out a square of fabric approximately one inch larger than the pattern. Trace pattern onto the fabric. Do not cut out the pattern traced onto fabric until after you've sewn on the traced line. Machine sew along the pattern tracing leaving a hole for stuffing. Cut around your sewn body 1/4 inch away from the seam. Turn right side out, stuff firmly then hand stitch the opening closed.

**For pre-made doll forms in a variety of shapes and sizes, please visit my website [www.Kivett-Studio.com](http://www.Kivett-Studio.com)**

**I also occasionally sell my forms and bead kits on Etsy too! [www.KivettStudio.Etsy.com](http://www.KivettStudio.Etsy.com)**

**Angel Policy:** This pattern, or dolls created from this pattern *may not be commercially manufactured* in any way. Individual artists are welcome to make as many handmade dolls as they wish with this pattern. These handmade dolls may be bought/ sold as long as credit is given to the original designer for use of the pattern. Please do not reproduce the pattern, instructions or images contained in the pattern, without written permission from the designer. I retain all copyrights.

Thank you,  
Ronda Kivett

This sample doll was made using this Butterfly Goddess Pattern.

Visit the [Kivett-Studio.com](http://Kivett-Studio.com) Doll Form Shop to see what polymer clay faces are available!

Leave dotted line open for stuffing...

**TIP:** It's easy to create a template from this pattern that can be used many times. Simply print the pattern on a sheet of sticker paper. Apply the sticker to a piece of paper board (a cereal box works well). Then cut out the pattern and you'll have a template that will survive repeated use.

**TIP:** Use a wooden stuffing tool, chopstick or hemostats to firmly push the stuffing into small hard to reach areas like the tips of the wings.
